

GET BACK BEHIND THE WHEEL WITH CONFIDENCE!

Mister Muffler has you and your vehicle's well-being at heart. Due to COVID-19, strict hygiene measures are in place to protect our customers and employees.

When you visit one of our Mister Muffler repair shops, we recommend the following preventive measures:

- Make an appointment in advance and show up at the agreed time.
- Disinfect your hands upon arrival and departure.
- Respect the 2-meter distance by following our demarcation on the ground.
- Limit the number of people present in the waiting room.
- Remain behind the plexiglass when paying (credit or debit cards are preferred).
- Wear a mask.

All vehicles, including the courtesy vehicles, are disinfected on all surfaces that have been in contact by the customer and by our 360 Mechanic. For this purpose, Mister Muffler cooperates with Silverwax, the specialist in high-quality automotive cleaning products, essential for a sparkling car, inside and out.

When you take back your vehicle, a seal and a bookmark certify that your car has been disinfected by your 360 Mechanic with Silverwax products.

Get back behind the wheel with complete confidence!

The Mister Muffler team
